|  | ● D20V103599B |                     |  |                     |         |         |                     |

### INNOVATIVE PATENTED LIQUID RETENTION SYSTEM

Trays specially designed to preserve the freshness and integrity of food longer, thanks to a channel system that holds liquids in its base, preventing the formation of microorganisms.

DryPET Trays do not require the use of additional absorbent pads due to the channel system. Exceptional product presentation that keeps hands and refrigerators cleaner.

### ECO-DARNEL

DryPET Trays contain at least 70% post-consumer recycled PET. At Darnel we have recycled the equivalent of more than two billion bottles. All our products are 100% recyclable, as well as their packaging. We use 100% recycled cardboard (80% post-consumer).

### FOOD REGULATIONS

All our products are made with raw materials according to FDA standards (Food and Drug Administration) for direct contact with food. According to Regulation Title 21 CFR 177.1630.

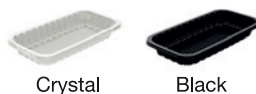

### MATERIAL

Polyethylene Terephthalate (PET), 100% resistant and hygienic products. Its compact texture prevents leaks and the accumulation of bacteria.

Approved for food  
contact.
